Hamza Arif Khan

Software Engineer

I am a dedicated and diligent individual with 01 year of experience in MERN stack development. My expertise includes building robust and scalable web applications using MongoDB, Express.js, React.js, Node.js, and Nest.js. Additionally, I have experience with web scraping, enhancing my backend development skills and broadening my ability to work with different technologies.

Bachelors of Information Technology
University of the Punjab Lahore

08/2019 - 09/2023

WORK EXPERIENCE

Mern Stack Developer
4XPortal

10/2024 - Present   *Lahore, Punjab Pakistan*

4XPortal is a London-based fintech and software development company specializing in custom solutions for the forex and financial services industry.

PROJECT

- **Ataria 2.0 – Fintech Application** A comprehensive fintech web app built with React , ShadCN , and Tailwind CSS on the frontend. The backend was architected using both Laravel (PHP) a n d Node.js, enabling a robust and scalable microservices-based infrastructure. This project focused on real-time financial operations, user onboarding, and compliance workflows.

Associate Mern Stack Enigneer
Ekkel Ai

02/2024 - 09/2024   *Lahore, Punjab Pakistan*

Ekkel AI is a technology company offering web and mobile app development, UI/UX design, custom software development and more.
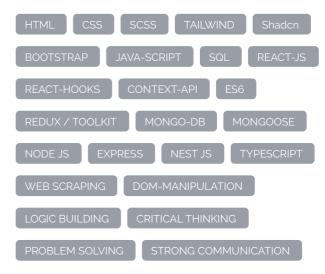

PROJECTS

- **META1ST** Developed and maintained the backend server for Meta1st.ai, an advanced platform focused on leveraging AI for meta-analyses and data-driven insights. My responsibilities included designing scalable server-side architecture, integrating AI algorithms, and ensuring robust data management and API functionality.
- **TWINLY** Implemented responsive web design using HTML, CSS, and JavaScript to ensure a seamless user experience across devices. Utilized React-JS, NEST-JS and TypeScript to enhance site functionality and performance.
- **ELNOVA** Developed and maintained the website and mobile application for Elnova, utilizing Ionic framework for cross-platform mobile development.
